Introducing International Blockchain Service & Academy

IBSacademy is a "Blockchain service" and "Education" provider which has a unique model that allows consumers to use the cloud-based services to develop, use and host their Blockchain apps, functions and smart contracts. In a nutshell, they provide full fledged Blockchain platforms and a unique education system that ease the development process.

It acts as a bridge between enterprise companies, Knowledge seekers and enterprise blockchain platforms.

Know more about IBS

If you check the history when " Internet " was just started, another big industry also introduced named " Internet Service Provider " (Internet, Wan, Lan, Web-site designing, hosting, and Internet education also). It was a trillion dollar industry.

With the invention of Blockchain technology and Crypto Currency another biggest industry on the way which is called " Blockchain Service Providers" with related Crypto education . IBS is representing this trillions dollar industry where demand of Blockchain service and education providers is increasing rapidly .

• International Blockchain Academy

International Blockchain Academy is the initiative of IBS which has organised the training as its sole focus. The Academy commits to develop and deliver the intended training on blockchain technology and Crypto Currency or Virtual Currency. International Blockchain

Academy is one of the first learning organizations which has introduced a truly dynamic online and offline educational training platform. This organisation provides classroom training as well as digitally (Audio Visual)with the years of combined experiences. Our instructors, consultants, and management team are expert on Technical & financial knowledge and gained experience from over thirty years of combined working. Our instructors and education group have designed, developed and delivering training programs globally and our software development team consists of some highly gifted programmers, designers, and educators, who understand it's about the end-user learning experience and the business goals.

• Our Expertis

Decentralised Apps: A decentralised application is a computer application which runs on a distributed computing system. DApps have been popularized by distributed ledger technologies (DLT) such as the Ethereum Blockchain, where DApps are often referred to as smart contracts.

• **Crypto Payment Integration:**

Integration of most advanced Payment method to merchants website.

• **Crypto Token Creation:**

How to create Crypto token through different blockchain technology.

• **Crypto Exchange:**

Centralised and decentralised Cryptocurrency exchange platform with ready liquidity and complete security measure.

• **Wallet Development:**

Our Blockchain development services include wallet development that ensures proper safety and security of your cryptocurrency coins with a wide number of functionalities too.

• **Smart contract creation:**

We unlock the potential of blockchain with smart contracts blockchain development since they cannot be altered and applicable to various industries.

- **Hyperledger Development:**

We leverage our expertise in Hyperledger development to utilize its features for several Blockchain applications.

- **Blockchain Gaming:**

Blockchain based Gaming apps including Prediction market, Gambling, E-sports, Casino apps etc.

• IBS TOKEN

- IBS token (IBS) is a Ethereum based ERC20 crypto currency.
- IBS has a simple setup of blockchain implementation, but consumer has to give IBS a certain fee to deploy and maintain the blockchain nodes. And it is paid by their native token "**IBStoken**".
- IBS is not just a crypto currency but a utility token of "**International Blockchain Service & Academy**".
- It is a **utility token** of IBS Academy needed for all products and services offered by "International Blockchain Service & Academy".

Benefits:

- IBS token is the Utility Token which is needed for all products and services offered by us.
- It has the facility of World wide acceptance that means international acceptability.
- It is uniform and its fast transaction confirms the transaction more efficiently.
- It is the Ethereum Blockchain which offers the highest speed of transaction and the most efficient security.

Example of few popular ERC20 token)

| # | Name | Platform | Market Cap (₹) | Price (₹) | Volume(24h) (₹) | Circulating Supply | Change(24h) |
|---|---|----------|-----------------|-----------|-------------------|------------------------|---|
| 1 |  Tether | Ethereum | 480,762,438,639 | 75.58 | 4,520,254,111,715 | 6,361,032,509 USDT* | -0.23%  |
| 2 |  Chainlink | Ethereum | 107,852,579,485 | 308.15 | 36,033,525,070 | 350,000,000 LINK* | 7.90%  |
| 3 |  Crypto.com Coin | Ethereum | 84,487,998,920 | 5.09 | 617,559,691 | 16,603,196,347 CRO* | 1.53%  |
| 4 |  UNUS SED LEO | Ethereum | 80,106,497,764 | 80.15 | 1,147,132,082 | 999,498,893 LEO* | -0.18%  |
| 5 |  Huobi Token | Ethereum | 70,501,052,442 | 316.62 | 9,208,816,612 | 222,668,093 HT* | -0.02%  |
| 6 |  USD Coin | Ethereum | 53,547,169,364 | 75.82 | 43,113,873,043 | 706,239,390 USDC* | 0.10%  |
| 7 |  Hedge Trade | Ethereum | 51,793,569,105 | 179.71 | 39,954,004 | 288,208,798 HEDG* | -0.41%  |
| 8 |  Maker | Ethereum | 25929,914,514 | 25,786.11 | 221,548,134 | 1,005,577 MKR* | 0.22%  |
| 9 |  NEXO | Ethereum | 5,461,353,466 | 9.75 | 263,944,099 | 560,000,011 NEXO* | 5.13%  |

DETAILS OF IBStoken

- Name : IBStoken
- Symbol : IBS
- Type : ERC20
- Blockchain : Ethereum
- Explorar : www.etherscan.io
- Token Contract Address :
0xf0e6019c0f16d31294937b3334229909349e00f4
- Total Supply : 1500000000
- Wallet : myetherwallet.com  MEW /  METAMASK /
 Trust Wallet
- Listed in www.coinmarketcap.com
- Listed in Exchange :  EtherFlyer &  VINDAX
(Rated as top 50 exchange) coingecko.com

• How to join IBS Academy

One can involve in "IBS Academy" by purchasing a "Blockchain & Crypto Education pack" which includes Online and offline education, Some special services and **IBS utility token (which can be used to get all other services from IBS Academy).**

Package starts from **25\$ only.**

Minimum : 25\$ (Trial Pack).

Maximum : 5000\$ (Premium Pack).

IBS Token Distribution

Total Supply : 150,0000000

Developer Holding : 20,0000000

Circulation : 100,0000,00 IBS

500,000,00 IBS will be added in every 6 month
