Abstract

IBS WHITEPAPER 2.0

- Recently, there has been a lot of progress in the block chain field, with the technology being improved through ambitious projects that want to lay the groundwork for a decentralized economy.
- Block chain has the potential to disrupt industry structures and drive large-scale changes in organizational business models. A strategic approach is required to realize this potential and overcome the challenges of adoption. IBSTOKEN is the world's first immersive ecosystem that is powered by a single multipurpose community token
- IBSTOKEN, built on the TRON Block chain (TRC20), aims to unite Block chain Service, Education, Communication, Entertainment, Fashion , Research, NFT based Gaming, DeFi, Travel, and other activities into a single ecosystem. IBSTOKEN's mission is to improve the block chain ecosystem and effect change by improving user experience and providing a multipurpose token for daily activities. The IBSTOKEN ecosystem would help accelerate block chain technology adoption while also empowering users to go fully digital, which is in line with the block chain community's goal of achieving true decentralization.
- Following our vision, the IBSTOKEN will be integrated into our upcoming projects. IBSTOKEN Ecosystem will offer its token holders appealing opportunities, innovative products, and services in the digital space.
- IBSTOKEN's business strategy and the applicable legal rules and regulations determine the availability of specific products and services in each market. IBSTOKEN is, without a doubt, the best option for a community that values the most efficient system for broadening its horizons. Let us together explore the infinite possibilities and create a better tomorrow for all of us.

Introduction

IBS WHITEPAPER 2.0

The IBSTOKEN ECOSYSTEM aims to create an ecosystem of digital products backed by a single multi-utility token, IBSTOKEN. As the world evolves into block chain technology, keeping different cryptocurrencies for different use cases is unnecessarily stressful.

It's almost impossible to choose a single token for all of your Service, education, entertainment, gaming , fashion , communication, travel & health needs.

IBSTOKEN is a multi-purpose community token backed by an immersive ecosystem to make lives easier.

It is a single token for multiple products and apps; it becomes profitable to earn rewards by creating and consuming content, learning, playing games, and communicating with your loved ones. The goal is to create the ultimate ecosystem for education, communications, fashion, gaming, entertainment and many more. We aim to be the leading innovator in the block chain industry, backed by some of the industry's most experienced players. The IBSTOKEN is a digital asset traded on the TRC20 platform native to the IBSA (International Block chain Service & Academy) ecosystem. It is a utility token designed to provide the IBSTOKEN ecosystem benefits and access to appealing opportunities in the digital asset space.

The IBSTOKEN was created to allow anyone, regardless of technical ability, to use it effectively, while also making it more accessible and understandable to the average person.

It is necessary to bring block chain technology to the masses through simple ecosystems that provide tangible benefits to the market while requiring no technical knowledge from the end-user.

As a utility token, IBSTOKEN allows users worldwide to use various digital products and offers multiple incentives to encourage the use of the platform, such as discounts and loyalty rewards. In general, block chain technology has demonstrated its utility in any application that currently requires a centralized ledger.

This Whitepaper discusses how block chain technology can address the problem of using multiple tokens for multiple products every day. In addition, It also discusses the unique features the IBSTOKEN ecosystem has to offer that make it stand out from any other block chain innovation out there.

IBS Token Vision

IBS WHITEPAPER 2.0

- The IBSTOKEN ecosystem's vision is as follows: Increased Accessibility -The IBSTOKEN ecosystem's vision is to make block chain technology available to as many people as possible in various parts of the world.
- As a result, we will a user-friendly ecosystem that will allow users to take advantage of the fast-emerging Tron Block chain features (TRC20).
- Leading player in the block chain industry- IBSTOKEN's vision is to be the leading provider of secure digital services and opportunities and the pioneering platform that enables digital products to be relevant to our users' daily lives.
- Lowering the entry barrier: IBSTOKEN's vision is to significantly reduce the barrier of entry into the token economy for both users and developers by providing a superior experience. To that end, we intend to develop a novel and robust block chain architecture for future projects.
- The primary goal of the IBSTOKEN ECOSYSTEM is to establish a set of global tools based on block chain technology in the fields of Service, Education ,Communication, Social Entertainment, Fashion, NFT based Gaming, Decentralized Payment, Travel App, Defi(Staking), And Decentralized Trading & Exchange Platform.
- Our goal is to create a highly secure and scalable infrastructure that allows for seamless interoperability of centralized and decentralized infrastructure. The next generation of decentralized infrastructure will determine the future of the current internet architecture. IBSTOKEN Ecosystem intends to pioneer a series of innovative digital products. With a native digital asset IBSTOKEN aims to provide unparalleled opportunities and benefits to its users and the IBSTOKEN community.

About IBS Token

IBS WHITEPAPER 2.0

- IBS Token is a Multi Utility Token Based On TRC20
- IBS is working with a unique model that allows consumers to use the cloud-based services to develop, use and host their blockchain apps, functions and smart contracts. In a nutshell, they provide full-fledged blockchain platforms that ease the development process. We are acting as a bridge between enterprise companies and enterprise blockchain platforms. Though these platforms provide a generalized version of the blockchain technology, not all organizations can integrate them into their business solutions. Some enterprises might require privacy; some might not. Using the platform to build blockchain solutions with their own development team could not be an ideal solution. Developers who have never worked with blockchain technology or platforms may leave a lot of security holes, and in return, it will harm the company itself. You should always approach blockchain experts before planning to implement blockchain within the business ecosystem.

IBS WHITEPAPER 2.0

IBS University (Already launched – online beta version) Blockchain And Crypto Currency Education

- IBSTOKEN Ecosystem offer block chain token- based scholarships and track our students' accomplishments on the Block chain database. Students get and can exchange the platform's token rewards for digital goods or services. The use of Smart contracts would make sponsorships and reward distributions simple. Students at IBSA & University will be able to 'earn as they learn' thanks to applying for token-based scholarships via Block chain technology. Taking courses with a token scholarship allows you to earn IBS Tokens, exchanged for additional courses or traded for different tokens. IBSA & University will provide our users with a gamified experience to keep them motivated to learn the necessary skills by immersing them in a fun and rewarding learning environment.
- IBSA & University will be the world's first decentralized education and rewards platform. IBSA & University will use the block chain to provide students with online courses that include various benefits and incentives, such as token scholarships and achievement tracking. In addition, the team behind the IBSTOKEN ecosystem wants to use block chain to transform academia and corporate hiring completely. The idea is to use smart contracts to connect students, universities, and businesses on the block chain. Users will also be able to obtain their certificates through smart contracts

Renewable Energy Business (SOLAR PLANT)

• IBS WHITEPAPER 2.0

Solar Business in INDIA – A Business of endless possibilities .

To provide a better , cleaner and greener future for India and the rest of the world IBSA started their another venture Renewable Energy Business .

India is running one of the largest and most ambitious renewable capacity expansion programs in the world. In 2019 at UN Climate Summit, India announced that it will be more than doubling its renewable energy target from 175GW to 450GW by 2022. Solar Energy in India has Giant Opportunities.

The Indian government had an initial target of 20 GW solar capacity for 2022, which was achieved four years ahead of schedule. The installed solar capacity in September 2020 was 36 GW and India has an ambitious target to achieve 450 GW of renewable energy capacity by 2030. Solar and wind energy have the lowest cost of power for new capacity.

It is a very good profit making industry which is going to be among the “next trend” Business. IBS will utilize it’s 10% profit for “Buying & Burning” of IBStoken which will reduce the circulations of the IBStoken and ensure its price stability and help for growth of price
